

61 as OPTIONS	62 as ALTERNATIVES	63 as README		64 as DOCS	65 as OVERVIEW	66 as ACTUALITIES
>> lower the barriers in accessing digital fabrication technologies		methods to boost circular economy			transfer the knowledge about machineries	develop digital fabrication services/consultancies
	manage onBoarding via: Modular Organising Recipe			document processes for reproduction		
> create fully open source fab-labs		methods to boost fabrication labours			transfer the knowledge behind the fullscope methods	develop digital fabrication protocols/program offices
	allocate resources via: Organisational Development Stack			document processes for development		
>> adopting the Collective Media Framework						develop digital fabrication hardware infrastructure
>> utilise the Distributive Governance Framework						develop digital fabrication software infrastructure
